Summary

Currently working in Farfetch which is a leading global platform in the luxury fashion online market, under Agile culture using C# (.NET Core), Apache Cassandra, Apache Kafka, Elastic Search, Jenkins and other tools to improve quality of deliverables.

Also working part-time in The Bridge Social, a consulting in Chile for a client in Jamaica, the Grace Kennedy financial group. There working on remittance project, integrating Western Union with GK platform and also on a digital wallet system for GK customers.

Previously worked on a bank, for an year and a half. During this period, participated on two teams (PIX and B2B) developing the PIX (Brazilian Instant Payments system), also developing APIs and Open Banking integrations, direct contact with clients B2B, regulatory agencies, other banks and technical teams to provide the best solution for both sides! Using .NET Core, SQL Server, RabbitMQ supported by DDD architecture, SOLID, DRY & KISS principles.

I am excited to contribute my strengths and proficiency in innovation toward your team efforts. As an extroverted and personable communicator with a proven track record in technical writing, my focus on building strong professional relationships has been a valuable asset throughout my career.

Web developer well experienced with C# and JS (both, frontend and backend with NodeJS), working with financial services, e-commerce, integrations, web and desktop solutions since 2012.

I have also worked with PHP since 2007 for freelance jobs.
